***Reissue Applications***

The reissue oath/declaration filed with this application is defective because none of the errors which are relied upon to support the reissue application are errors upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

For example, it is not sufficient for an oath/declaration to merely state that original patent claims 4, 8 and 9 contains steps were not necessary. These claims were too narrow. Rather, the oath/declaration must specifically identify an error. Any error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error. The error mentioned and corrected in the reissue oath/declaration of 02/02/01 are no longer there because the applicant canceled the amended original claims 4, 8 and 9 and newly added claims 10-19. The differences between the newly added claims 12, 14 and 36-45 and the original claims 1-9 must be pointed out.

The reissue declaration filed 02/02/01 failed to comply with 37 CFR 1.63 because it failed to state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 1.56 as required by 37 CFR 1.63(b)(3). To cure this defect, the applicant may use Form PTO/SB/51 which may be downloaded from the USPTO website.

The reissue claims broaden the scope of the patented claims in at least one respect even though they are narrower in other respects. MPEP 1412.03(I). Therefore, the Supplemental Declaration must be signed by all inventors (not the assignee). MPEP 1414.01(III). See also *In re Hayes*, 53 USPQ 2d 1222.

***Allowable Subject Matter***

Claims 1-3, 12, 14, 36-41 are allowed.
